Conclusion

Humanae Animation.

Angélica Dass | 2012 - *Work in Progress Humanae* is an unusually direct reflection on the color of the skin that challenges the concept of race attempting to document humanity's true colors, rather than the untrue labels "white," "red," "black," and "yellow."

About the Online Exhibition

Voices

This online exhibit features the work of many inspiring and path-breaking academic researchers, social activists, and artists. Their diversity of voices and scholarship bring new insights into the nature and consequences of social bias. Learn about some of those voices here.
